Overview

The purpose of this document is to guide the user through the steps required to successfully puchase and activate a StoneFly Storage Concentrator (SC) with the user required features. Deployment guide for the StoneFly SC is provided in a separate document.

Step 1: StoneFly Storage Concentrator Product Page

To access the StoneFly SC purchase page open a browser and navigate to https://stonefly.com/subscription

This will direct you to the SC subscription plans page.

On the StoneFly "subscription plans" page, choose the plan you want to follow and click on **get started**.

		Resources Support 510-265-1616 My Acco	unt 🛱 1 item

Starting From	Starting From	Starting From	Starting From
\$10	φ20	\$100	\$250

Step 2: Choose the Storage concentrator

On the next page, the storage concentrator type and configuration page will display.

Choose the storage concentrator type (SAN, NAS or NAS + SAN).

Concentrator Type

SAN Only	۳
Choose an option	
SAN Only	
NAS Only	
NAS + SAN	

A. Storage Concentrator types

1. SAN

In the **SAN** option, you can create SAN volumes that can be assigned to iscsi hosts. This option includes advanced features including: snapshots, synchronous mirroring, asynchronous replication, thin volumes, encryption, deduplicated volumes, and flash cache.

To support the deduplication feature the operating system has to have at least 7GB of RAM.

2. **NAS**

In the **NAS** option, you can create NAS volumes with advanced features that can be shared and accessed by multiple users.

To be able to deploy NAS volumes the operating system has to have at least 4GB of RAM.

3. **SAN + NAS**

NAS + SAN storage concentrator enables you to create SAN as well as NAS volumes.

B. Configuring the Storage Concentrator

Choose the advanced features you want by checking the box next to the feature.

Enter the storage concentrator space (in TB) and select the number of hosts for the SC.

The **Enable Cluster** feature allows for the creation of an Active-Active Cluster of two Storage Concentrators. This allows for remote replication, maintenance on 1 system while the other remains active for host utilization and resource sharing between multiple storage concentrators.

Once the selection is made, click on **add to cart** to continue.

Step 3 : Cart Review

In the box under **quality**, you can select the number of storage concentrators you want. Multiple SCs are necessary for cluster configurations.

Enter the **coupon code**, if you have one to claim your storage concentrator product discount.

The StoneFly SC is free for the first **15 days**. After the trial period is over, the payment will be deducted from your Payment account.

Review your cart and click on **proceed to checkout**.

Step 6: Check your Email

Check your email after successfully purchasing the storage concentrator.

You will receive two emails:

- A. **Your Order** email: includes the **product key** for the storage concentrator activation and the "steps for activation".
- B. A thank you for your order email: includes detail about your order.

Fri 6/2/2017 11:06 AM No-reply@stonefly.com <noreply@stonefly.com> Storage Concentrator Product Key

YOUR ORDER

Storage Concentrator Quarterly Subscription – NAS + SAN:License Key

bd660-8adf5-69153-c4d8d-d0d49-78a3f-e6

STEPS FOR ACTIVATION

- 1. Open the SC GUI page in your browser. This will open up the login page on the SC
- 2. Copy the license key from above and paste this key into the product key field on the login page
- 3. Press activate button

Step 7: Storage Concentrator Activiation

In this section we will use the "product key" emailed to you for activating the storage concentrator.

Open a web browser and navigate to the IP address provided in your SC virtual machine to open the SC GUI page. The SC login page will be displayed.

Copy the "product key" from your order email and paste it in the **product key** field.

Press Activate to activate your StoneFly SC.

	Enter the System
