

StoneFly SCVM™ - The Only Storage Solution you'll ever need

SCVM™ is trusted by 500, 000 businesses in over 150 countries across the globe.

Businesses can use SCVM™ as a:

Cloud Storage Gateway

SCVM™ delivers cloud connect services to Azure, AWS and other public clouds.

Enterprise Cloud NAS Storage

Setup NAS in the cloud and share access with multiple hosts with data services like encryption, snapshots, Active Directory Integration and more.

Enterprise SAN in the Cloud

Seamlessly setup block-level storage in the cloud with SCVM™. IT environments can easily access and use SAN resources deployed in the cloud as if they're setup locally. SCVM™ delivers iSER, iSCSI and Fibre Channel for Cloud Block Storage.

SAN + NAS in the Cloud

Create iSCSI targets in the cloud and assign them to hosts or create NAS volumes and share them between multiple hosts.

What SCVM™ offers for enterprise IT environments?

SCVM™ is StoneFly's Software Defined Storage (SDS) solution that simplifies storage for enterprise IT environments. With SCVM™ businesses can reduce storage costs, optimize storage utilization rates, deploy Network Attached Storage (NAS) volumes and Storage Area Network (SAN) volumes seamlessly on local (on-prem) infrastructure and in the cloud.

SCVM™ supports Microsoft Hyper-V and VMware ESX/ESXi hypervisors facilitating all kinds of enterprise workloads. Enterprises can easily consolidate their data centers, accelerate disaster recovery, ensure compliance to numerous industry regulations, enhance IT agility to support core business and more.

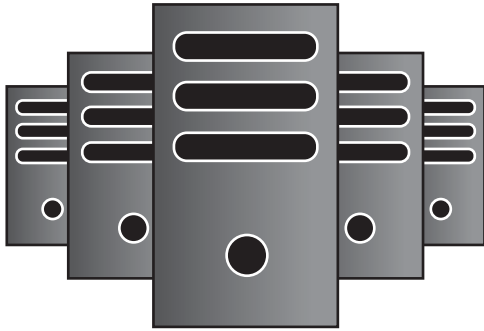

With StoneFly SCVM™ businesses can:

- ✓ Enable Highly Available NFS and CIFS File sharing in the cloud
- ✓ Move out of the box and enjoy the perfect hybrid infrastructure
- ✓ Move Petabytes of Data to the cloud easily
- ✓ Optimize Storage utilization rates with deduplication
- ✓ Protect your Enterprise data with Erasure Coding
- ✓ Ensure data security and get simplified access control
- ✓ Acquire unlimited performance for cloud and on-prem workloads

SCVM™ delivers a number of Enterprise-level data services:

- ✓ AES 256-bit Encryption
- ✓ Deduplication
- ✓ Thin Provisioning
- ✓ Erasure Coding
- ✓ Scheduled and manual snapshots
- ✓ Automated Storage tiering
- ✓ High Availability
- ✓ Caching

SCVM™ enables businesses to setup their storage in Microsoft Azure and AWS data centers worldwide.

Setup your storage in Enterprise-level Clouds easily and Cost Effectively

StoneFly's partnerships with Microsoft Azure and Amazon Web Services (AWS) enables us to offer businesses access to Azure and AWS data centers worldwide. Businesses can choose from the list of data centers and regions that Azure and AWS offers and gain access to them via SCVM™.

With SCVM™ businesses can setup NAS, SAN or both NAS and SAN in Azure or AWS cloud easily and deploy within minutes.

SCVM™ not only supports Azure and AWS but also other public clouds that are S3 or blob storage compatible.

Get StoneFly SCVM™ to accelerate your cloud journey. Move live data and applications today.
